

As most of you know by now Avery County was hit by a severe ice storm on Christmas Day. Land Harbor was one of the hardest hit areas in Avery County with trees and limbs down on almost every lot in our community. Land Harbor staff has spent countless hours surveying our community and contacting home owners with obvious property damage to homes. Although actual damage to homes has been amazingly light, most property owners are facing a major clean up upon returning for the season. Since the majority of our seasonal members return during the May-June period finding a contractor during this time to clean up your property may prove to be very difficult and expensive. I would suggest that you consider finding a contractor this winter to deal with your individual clean up issues. If you are unsure of the necessity of debris clean up for your property we can help.

Email me at msimpson@linvillelandharbor.com Call the POA office at 828-733-8300
Mail a request to PO Box 160, Linville, NC 28646 Attn: General Manager

Once we receive your request we will inspect your property, take pictures and report back to you our findings. Hopefully, working together, we can make sure you get your property cleaned up and ready for another fantastic season!
